7 July 2009

SAPA/KZNPI TRAINING 2009

As mentioned in my previous letter this year's training will be done in co-operation with the KwaZulu Natal Poultry Institute. Dates for the training in the Western Cape have been finalised.

The KZNPI is registered with AgriSETA as an accredited training provider. The course material is aligned with the SAQA unit standards and has been verified by AgriSETA. The huge benefit to the poultry industry is that organisations are able to claim back a larger portion of their skills development levy and that delegates receive a formal qualification.

Learners (delegates) that are found to be competent will be awarded a certificate and the relevant credits. These credits are portable (may be taken from job to job over a period of time) and allow the learners to work towards a level 3 National Certificate in Poultry Production.

Course material will be available in English and Afrikaans.

*** **Attached** herewith the Registration Form. Kindly complete and send back as soon as possible.

Kind regards
S A POULTRY ASSOCIATION

Kevin Lovell
