ZAPA FARM

- We would like to send our heartfelt gratitude to SAPA for the continued support that they are extending to emerging farmers at large.
- The Quantum Foods programme of supporting emerging farmers with inputs is an example of how private-public partnership will ensure transformation in our Poultry industry and subsequently ensuring Food Security in our Country.
- We, at ZAPA FARM, are very committed to ensuring that the seeds that have been sowed by this support will produce fruits that we will all be proud off.

Quantum Foods Delivery

- We were grateful to receive 3000 layers on the 1st October 2020
- 400 bags of Layer feed was delivered
- We are currently arranging buying eggs from Quantum foods to cater for our high demand for eggs

Thank You
